Acknowledgements

WZ has been supported by the FP6 European Coordination Action HELAS and by the Research Council of the University of Leuven under grant GOA/2003/04. Thanks to Conny Aerts, Maryline Briquet, Duncan Wright, and Jagoda Daszyńska-Daszkiewicz for the detailed proofreading of the manuscript that led to a significant improvement of the manual. Many thanks to Maarten Desmet for the many good ideas and to the asteroseismology team of the IvS for their critical testing of FAMIAS and their constructive comments and bug reports.
